

HARDANGER- JØKULEN 33K

For those who think 95K is a bit too much, Xtremeidfjord has the pleasure of offering another race in 2020.

After sending the ultra-runners off into the wild mountain, get ready for the first Dynafit Hardangerjøkulen 33K starting at 11:00 at Liseth Pensjonat & Hyttetun. As in the ultra-race, participants must navigate along DNT's paths using GPS. The trail is not marked by the organizer and there are no check points along the trail. It's therefore a prerequisite that you know how to use a GPS and have all the necessary equipment you need in your backpack.

The route is the same as the 95K along the first kilometers. At the hill before Rembedalsvatnet the trails separate. The 33K loop takes you towards Skykkjedalsfjellet, rounds back towards Leirhalsen and ends at Liseth after 33K. The trail is varied and at times demanding, and you run in mountain terrain all the way. When you finish at Liseth you will be reunited with our awesome crew who will be in place all day (and throughout the night) to welcome tired, dirty and happy runners.

Liseth Pensjonat & Hyttetun is our base all weekend and there it'll be a pleasant atmosphere with a bonfire, the possibility of a hot meal and the obvious exchange of good stories from life along the course. You can watch how the runners who's still enjoying themselves in the mountain are doing on a big screen.

Xtremeidfjord welcomes you to the mountains and we'll do our very best to make this a great and memorable day you'll remember for the rest of your life!
